

Mid Exploitation Specialist — Data Scientist

Springfield, VA (on-site) | NGA Washington (NCE), Source (ATP) | 1st Shift | Active TS/SCI, must be able to obtain a CI Polygraph | Full-time, W-2 with benefits

Technology On Time, Inc. (TnT) is hiring a **Mid Exploitation Specialist (Data Scientist)** to support the Source directorate at NGA Washington. This role centers on survey and operational data: you will run the statistical analysis, build and maintain the tools and databases behind complex survey efforts, and keep multiple data sources integrated and validated — including in constrained hardware, software, and bandwidth environments.

Required Qualifications

- Active TS/SCI clearance with the ability to obtain a CI Polygraph.
- Experience conducting statistical analysis on survey or operational datasets and communicating results through data visualizations.
- Experience compiling, organizing, and analyzing datasets to derive meaningful insights.
- Experience developing, maintaining, and enhancing tools, databases, or applications that support complex survey development and implementation.
- Ability to manage and maintain data in environments with hardware, software, or bandwidth constraints.
- Experience integrating, maintaining, and validating multiple data sources to ensure consistency and accuracy.
- Knowledge of U.S. Government and NGA records management practices.
- Strong computer skills with demonstrated proficiency using Microsoft Windows-based platforms and common data analysis tools.
- Demonstrated customer support and stakeholder engagement skills.
- Strong analytical thinking, problem-solving, and organizational abilities.
- Excellent written and verbal communication skills.
- Ability to work independently while collaborating effectively within multidisciplinary teams.
