

Senior Exploitation Specialist — Data Scientist

St. Louis, MO (on-site) | NGA St. Louis (N2W), Analysis Office (AOS) | 1st Shift | Active TS/SCI, must be able to obtain a CI Polygraph
| Full-time, W-2 with benefits

Technology On Time, Inc. (TnT) is hiring a **Senior Exploitation Specialist (Data Scientist)** to support an NGA Analysis Office at NGA St. Louis. You will build scalable processes over large, complex intelligence datasets, surface the trends and discoveries hidden in them, and deliver those findings as visualizations that analysts can fold into daily operations. This is a high-tempo, senior-level role with multiple concurrent efforts.

Required Qualifications

- Active TS/SCI clearance with the ability to obtain a CI Polygraph.
- Intelligence background, having provided analysis and/or data science directly supporting an intelligence mission.
- Ability to operate at a senior level in an independent environment.
- Demonstrated proficiency designing and implementing scalable processes for large and complex datasets to identify trends, insights, and analytical discoveries.
- Senior-level Python scripting ability. Additional languages and low-code/no-code platforms (JEMA, Brewlytics, ArcGIS Model Builder) are welcome, but Python is required.
- Ability to translate analytic discoveries into visualizations that integrate easily into daily operations.
- Ability to operate in a high-tempo environment, developing and managing multiple projects and solutions simultaneously at varying stages of implementation.
- Familiarity with common Intelligence Community (IC) data repositories.

Technology On Time, Inc. is a minority-owned small business delivering cleared engineering, data science, and geospatial talent to the Intelligence Community and Department of Defense. To apply, send a current resume to info@techontime.com. TnT is an Equal Opportunity Employer; all qualified applicants receive consideration without regard to any legally protected status.
